Scribal Skips: 1300 Words That Fell Out of the Bible  
By Wayne A. Mitchell

Wayne Mitchell presents the culmination of research of biblical manuscripts for text that has fallen out of the Bible during the era of hand copying, and has mostly not as yet been restored in any major Bible translation. A list of complete verses with words that have fallen out from scribal skips in brackets is provided from Genesis to Revelation. With the restoration of verses in *Scribal Skips* from the Dead Sea Scrolls and other manuscripts, the reader may be able to say with a significant degree of confidence that they have finally read the *whole* Bible!

“[A]n amazing feat of industry, and very useful.”

—Peter Rodgers  
Adjunct Professor School of Theology  
Fuller Theological Seminary
